SKILLS SUMMARY

- Technical: R, Java, Microsoft Office Suite (Advanced Excel, Spreadsheets)
- Analytical: Data Analysis, Mathematical Competency, Problem Solving, Detail-Oriented
- Core Competencies: Communication & Negotiation, Customer Focus, Collaboration, Innovation
- Language: Fluent in Spanish and English

EDUCATION

Bachelor of Science in Industrial Engineering

Expected: May 2029

University of Arkansas, Fayetteville, AR | GPA 3.625

Relevant Courses

Computing Methods, Statistics for Industrial Engineers, and Intro to Industrial Engineering

ENGINEERING-RELATED EXPERIENCE

Research Assistant, TREAT (Teaching and Researching Emulsified Asphalt Treatments) Summer 2026

- Assisted with setup, operation, and breakdown of mobile lab equipment for 3 live demonstrations per day of asphalt emulsion manufacturing and application.
- Operated spraying and application equipment to demonstrate processes to industry professionals and state agency representatives in Texas, Oklahoma, and Kansas.

Water Filter Prototype Project

Fall 2025

- Constructed a functional water filter prototype using layered natural materials (rocks, pebbles, sand).
- Gathered and interpreted observational data to assess the filtration process and effectiveness of the design.

LEADERSHIP EXPERIENCE

Assistant Volunteering Director - Mexican American Student Association (MXSA) May 2026 – Present

- Promoting organizational visibility and engagement across the student body, growing awareness of MXSA's mission and events.
- Serving as liaison between the volunteering and marketing teams, coordinating outreach and promotion for volunteer events.
- Sourcing and establishing partnerships with outside organizations to secure new volunteering opportunities for members.

WORK EXPERIENCE

First-Year Engineering Peer Mentor – College of Engineering

August 2026 - Present

- Mentoring incoming first-year engineering students through the academic, professional, and social transition to university life, meeting weekly to provide individualized guidance.
- Applying active listening and problem-solving to identify each mentee's specific needs and connecting them with relevant campus resources, academic advisors, and involvement opportunities.
- Guiding mentees on early career planning topics including resume building, internship timelines, study abroad options, and engineering organization involvement.

Research Assistant – University of Arkansas Asphalt Lab

May 2026 – Present

- Conducting asphalt and emulsion manufacturing and testing, while ensuring consistent and repeatable results.
- Collecting and analyzing test data to evaluate material performance and quality, applying attention to process consistency and precision.
- Maintaining detailed records and documentation of test results to support quality control and research conclusions.

Housekeeping – Broken Cabin Lodging

May 2022 – December 2025

- Served internal and external clients by preparing cabins and Airbnb to the highest standards of cleanliness and comfort, directly contributing to guest satisfaction and positive reviews.
- Managed inventory and restocked guest amenities and supplies with meticulous attention to detail, ensuring a welcoming environment for every arrival.
- Maintained a positive attitude and a fast-paced work ethic to complete all tasks accurately and thoroughly before guest check-in times.

CERTIFICATION/HONORS

Engineering Career Awareness Program (ECAP)

Fall 2025 - Present

Silas Hunt Scholar | University of Arkansas

Fall 2025 - Present

Wal-Mart Endowed Scholar | University of Arkansas

Fall 2025 - Present
